

IMPORTANT THINGS TO KNOW TO PREPARE FOR YOUR UPCOMING ULTRASOUND

Please arrive at least ten minutes prior to your ultrasound appointment time so both the ultrasound tech and the physician remain on schedule.

If you arrive late for your appointment, you may be asked to reschedule.

If you would like a gender reveal included with your ultrasound, please notify the tech before the ultrasound starts.

Please remember that the ultrasound is a very complex diagnostic test used primarily to evaluate the well-being of your baby, as well as an opportunity to determine gender and obtain pictures.

Following the ultrasound, a Board-Certified Obstetrician will review the findings and images with you.

Pictures of your baby will be uploaded to a flash drive and given to you when you have your 20-week ultrasound. We will provide you with the best pictures possible, however, sometimes the position of your baby or other issues can affect the quality of the images.

Once again, congratulations, and we look forward to showing you the new addition to your growing family.
